New Adult Paranormal Romance

What if your fiancé turns out to be a werewolf, and worse, his creature-of-the-night girlfriend is trying to kill you?

Lucy Hart, eighteen-year-old queen bee and captain of the cheer squad, faces just that. She loses everything—money, social status, and even her home—when her father is arrested for tax evasion and immigrant slave trafficking. Reduced to flipping burgers, she plots to get her old life back by blackmailing her father's slimeball lawyer and scheming her way into a gig pretending to be a rich young man's "fiancée."

The pay: enough money to let her write her own future. The bad news: the guy is a condescending pain in the butt.

In no time at all Lucy finds herself fighting for her life as her faux fiancé's vampire girlfriend tries to slaughter her, and on top of that, getting royally grossed out by her own spanking new paranormal ability: necromancy. Yet somehow, while she gets back her life and kicks vampire butt, she also manages to fall in love/lust with her fake fiancé.

Newly edited.

Surprisingly Lovable

By Amazon Customer

I bought this book because of the fun storyline, however I really didn't have high expectations regarding the overall writing quality of it. Even though in the beginning of the book I thought about hitting the home button on my Kindle, due to the sheer annoyance of the main character, Lucy, i'm so glad I stuck with it because in the end I couldn't put this book down (I seriously stayed up till 5:00am reading it). Throughout

the book you see Lucy transform from a spoiled little girl who values money and appearances above all else, to a young woman who is just beginning to understand what truly matters in life. The paranormal aspect of the plot could seem a little cliché because of its vampire/werewolf friction, however throw in a little necromancer action and you've got yourself a winner.

This book was a super fun and well written paranormal read and I seriously can't wait until the second book comes out, I will definitely be stalking the release date on Goodreads.

Just a good time over all!

By Tamara!

Found it delightful actually, which surprised me. I don't really go for formula supernatural teen love stories, but since it was free, figured it was worth a shot. So, not only was it enjoyable, it was surprisingly so!

Having a spoiled, vapid teen have her world wrecked in the blink of an eye and how she chose to fight back was fun and funny. She just keeps rolling with the punches while everyone around her thinks she's just a brat, when actually, she's a clever young woman with a good heart and some admirable goals.

Highly recommend this one for easy, good vampire fun!

Not very likable characters

By Dinnerandmurder

I almost put this book down only a few pages in. It got better, but not enough to save it. Every character except the grandmother is terribly shallow and selfish. They never quite achieved 3 dimensionality. Fell flat and too self centered to even care about. The story line itself was good and could be a good book, if it wasn't filled with spoiled rotten brats.
