"Don't even think of buying a boat until you have read this book" Tom Cunliffe (legendary sailor and author of *The Complete Yachtmaster*).

The idea that you have to be rich to travel the world on your own yacht is so universal that it goes largely unquestioned. The ubiquitous images of rich men on super-yachts sipping Martinis only help cement this image. This book hopes to change all that.

Rick and Jasna's recent appearance on Ben Fogle's *New Lives in the Wild* chronicled their budget lifestyle and adventures aboard *Calypso*, and introduced the idea of budget sailing to a whole new audience – an audience who may have never considered the possibility that such a dream could be made a reality, on such a small amount of money. This book is for them and for any experienced sailors who want to cast off the yoke of consumerist yachting and get back to what really matters at sea.

If you are not rich, but dream of seeing our beautiful world from the deck of your own boat, this book is packed full of practical and spiritual advice to help you cut through the endless marketing and identify what it is you truly need to become a modern sea gypsy and sail away on the greatest adventure of your life...

Solid advice (with a sense of humor) for "regular" folks

By Stoder

Just finished this book. Thoroughly enjoyed it. It was like Rick and Jasna were sitting in the cockpit talking to us. I've read every book in the appendix as well as every book they referenced and many more, but I wish

this book had been around back before we started our water gypsy life. Not that we would have done anything differently (except maybe avoid the teak decks) but because they write it from the same perspective that we had when we started: not born on boats, not talented boat builders, not seasoned sailing veterans, not rich, just regular people with a will to live a little differently than the masses. And they don't preach that theirs is the only way to do things. Theirs is simply one way to do things and one that they feel is very conducive to the sea gypsy lifestyle. But if you choose to follow a different route, it's fine with them. In "Get Real..." Rick and Jasna hit all the topics without getting hung up in minutiae. It's a great book for solid advice as well as good old fashioned motivation. Bound to get more than a few cubicle-jockeys itching for the open seas and asking themselves, "Why not me too?".

The Best Title Ever!!

By Marie-France & Mike

An excellent reference manual/instruction guide for a low budget eco-conscious cruiser. I had to learn many lessons from this book the hard way. It's really interesting that we independently discovered many of the same solutions and practices. This book is written by people who honestly practice what they 'preach'. This is the real deal. If you are contemplating living and traveling on a boat the information here is invaluable. It is written with a great sense of humor, and also respect for alternative methods that accomplish the same goal. We've anchored next to Calypso and appreciate their sailing discoveries, like using a wind-scoop for a spinnaker on a kayak. Useful winds and following seas to Rick and Jasna. Hope to catch up with you soon.

This book should be on every cruising sailboat!

By IB

Without doubt this is the best book that you can get about living and cruising on a sailboat. Rick and Jasna give you all the practical advice that you need and that you don't get anywhere else. I bought my first boat 9 years ago and had to learn some things the hard way. I just wish that Get Real Get Gone had been available then as it would have saved me a lot of hassle and quite a lot of \$\$ too! Buy and study this book before you go looking for your boat, they will show you how to find the right boat and take you through the buying process to getting the right price . But its not only about the boat, Rick and Jasna introduce you to the liveaboard lifestyle in a realistic and constructive way helping you to understand how achievable this lifestyle is. They tell the truth about being out cruising though anecdotes and stories with a very good writing style and sense of humour that inspires you to Get Gone too! But this is also a great book for people who are already out there - we cleared out another book in our library to make space for this one, which we think should be in every boat's library!
