Excellent!

By Amazon User

This book is perfect for advanced pianists. The music is written for the piano damn near exactly how it's played on Mayer's guitar. The only thing I was sad about was I'm Gonna Find Another You did not have the voice melody worked into the song.....it was just the background music of the actual song. Guess I'll have to start singing along while I play. Overall, I'm extremely pleased with this piano book. :o)
