An inspiring story about the spiritual path of human beings

By Universum7

I like this book very much because it is easy to read and in my perception more inspiring than many other books.

One can see that even the Masters were not born as fully perfect beings but had to meet many challenges. The most interesting part was when it is told how Jesus felt the established connection with the source. I recommend this book if you like a bit of a metaphorical description of the path that we all have to go. I felt it is not so intimidating as many books I have read or teachers I have encountered.
