## **BY VICTOR GOMEZ PDF**

Throughout my Army career I met people who did what they had to do, what they got paid to do. I was blessed in getting to do what I loved. This book is, first, an autobiography and, then, a leadership assessment of the Army and its civilian leadership. It is based on my observations, experiences, and knowledge. I love America and am grateful for what she's meant to me and to my family. I also love the Army and the years I spent in an organization whose values were so head and shoulders above the rest of society. If I have been critical of leadership, it is because of the price soldiers pay for weak, broken, or absent Leadership.

It is because I still love soldiers and soldiering that I decided not to put off writing this book. It chronicles painful events in my childhood that shaped my character, followed by wartime service. In my life there have been victories and losses; I have learned to live with both. There are facts in this book about my life that may surprise some, but this river of memories will enable others to better understand me. This book is about enduring pain and hardship, hard work, perseverance, and how life affected me. This is my story.

Vic Gomez tells an interesting story of rags to RESPECT!

By Major B

In this book, Vic Gomez tells it like it was in the 1950's. Any kid who grew up in that time in the U.S. would see Vic's early childhood in Cuba as dirty, dusty, and depraved - - - though Vic endured it. My opinion, Vic's growing up those early years in Cuba made him stronger, though a bit jaded. I've only read the intro, but I'm hooked, and I just placed my order for his book.

I knew that Vic was a Vietnam Vet, and I once was in the front leaning rest position as Vic graded me on my pushups for a PT Test. I was a 38-yr-old CPT in a Division HQ Company, and Vic was the SrNCO. I was not going down to touch my nose to the ground on each rep as far as Vic thought I should be going, so Vic kept repeating the same number 35... 35... 35... even though I thought he should be counting 35... 36... 37...! I soon realized that Vic had high expectations of how a pushup should be done, so I went all-the-way-down each rep till I heard the number of pushups increase. Vic was tough on me, but I deserved it. He expected the best out of himself, and out of everyone else in our unit, and I respected him for it. I now understand better

where he was coming from, and how far he had come.

I'm sure the rest of the book will be just as entertaining as the first 40 or so pages that I was able to read online. I'm glad you put your story into print, Vic!
