From Publishers Weekly

The fourth in a series of Nick Stone thrillers (after the well-received Firewall), this one gets off to an exciting if typical start as freelance assassin and ex-British SAS agent Stone orchestrates a precision team hit on a high-level target attending a snobby dessert social on the banks of the Thames. The target is to be identified by the team leader, Yes Man, who is to tap the victim on the left shoulder and wait for the snipers to do the dirty work. At the moment of contact, without explanation, Yes Man compromises the mission, and the police end up killing the three snipers. Stone is inexplicably given a second chance to complete his assignment alone by "last light Friday" at the victim's fortified home near the Panama Canal Zone. At this point (if not earlier), the novel loses coherence, dwelling on Stone's encounters with an aging tree-hugger college professor, his ganja-smoking young wife and their adopted daughter, who provide him with weapons and a base of operations in the Panamanian rain forest. Among Stone's spine-tingling preoccupations in Panama are chigger bites, a nagging headache and his nonstop guzzling of water, and there is a plethora of dialogue-driven exposition about Noriega's overthrow and the ruin of the rain forests. More choir boy than cold-blooded killer, Stone is given to mawkish introspection and invites self-destruction by confessing all sorts of sins to his colleagues. Most readers will be praying for an early sunset.

Former British special services agent Nick Stone, now a freelancer, never fails to come through. This time, though, as he's manning the controls for a sanctioned, three-sniper assassination at a Houses of Parliament function, he chokes. Seems that his target is a boy, and his human side causes him to abort the operation. This doesn't sit well with his bosses, of course, and Nick figures he will be their next victim. But his life is spared on one condition: he must carry out the original assignment on his own. His punishment if he fails again is certain death, but even more excruciating is the bosses' threat to kill Kelly, the 13-year-old for whom Nick acts as guardian and who witnessed her family's execution in McNab's first novel, Remote Control (1999). The target is the son of a Chinese businessman with apparent ties to Colombian guerrillas, and as Nick gets closer to grasping the plot that led a legitimate government to hire an assassin, he becomes the

hunted as well as the hunter. While traipsing through Central American jungles (leading to a climactic scene at the Panama Canal), Nick is haunted by the image of Kelly being in danger, motivating him to make some tough, life-altering choices. About Andy McNab

From the day he was found abandoned in a carrier bag on the steps of Guy's Hospital, Andy McNab has led an extraordinary life.

As a teenage delinquent, he kicked against society. As a young soldier he waged war against the IRA in the streets and fields of South Armagh. As a member of 22 Special Air Service Regiment he was involved for ten years in covert and overt special operations worldwide, often working alongside America's Delta Force, SEALs, DEA and CIA.

During the Gulf War he commanded Bravo Two Zero, a patrol that, in the words of his commanding officer, 'will remain in regimental history for ever'. Awarded both the Distinguished Conduct Medal (DCM) and Military Medal (MM) during his military career, McNab was the British Army's most highly decorated serving soldier when he finally left the SAS.

Since then Andy McNab has become one of the world's bestselling writers, drawing on his insider knowledge and experience. As well as three non-fiction bestsellers, he is the author of fifteen bestselling Nick Stone thrillers.

Besides his writing work, he lectures to security and intelligence agencies in both the USA and UK, works in the film industry advising Hollywood on everything from covert procedure to training civilian actors to act like soldiers and he continues to be a spokesperson and fundraiser for both military and literacy charities.

Nick Stone series book 4

By Tom Lowry

This is the 4th book in the series and it is pretty similar to the other books. The author develops the story well and has many high and low points which keep you guessing a bit. I enjoyed book 3 *Firewall* more than this one but the Nick Stone books are always easy fun reads.

Good, not great.

By Mr Legume

So far I have had difficulty putting McNab's books down. *Last Light* was different - the book did meander a little on more than one occasion and admittedly I read about a third of the book and I wasn't really motivated to come back to it for several weeks.

I did enjoy it while I read it, but there was in general something missing from *Last Light* that was present in McNab's previous books. The story is good, but not great. Several chapters are a little on the dull side (maybe 'dull' is the wrong word and 'less gripping' is better) and at the end of the book I felt that not enough had really happened from cover to cover.

Personally, I found the climax a little disappointing and less intense than McNab's previous writings. The ending chapter seemed somewhat disconnected from the story itself and more of a re-introduction to the usual beat of the series, but even this failed to capture some of the more touching moments we've previously witnessed with Nick Stone's softer side.

If you're a McNab fan like me, then get this book. You won't be disappointed and you'll remain up to date with the life of Nick Stone. However, this book feels to me to be more of a 'standalone' than part of the Nick Stone series and you'll feel that this isn't quite going to fill the gap as you await the next update.

If you don't know of McNab, I can well recommend earlier Nick Stone books first as I feel that any interest you may potentially have in following this character may not be sparked up by *Last Light*. I can well recommend *Firewall* (best novel I ever read) for ultimate excitement, but there is benefit to starting at the beginning of the series too.

Firewall Redux

By A Customer

For such a talented writer, McNab can be a rather pedantic storyteller.

His two non-fiction books, "Bravo Two Zero" and "Immediate Action," are real page turners; reads that will have you laughing one minute and teary eyed the next. His fiction has ranged from pretty good ("Crisis Four") to pretty bad ("Firewall"). This book, unfortunately, falls in the latter category.

Without giving anything anyway (which actually wouldn't be hard with a plot this thin and predictable) "Last Light" is basically the exact same mix of characters and events as found in "Firewall" but set in the jungles of Panama rather than the snow of Finland. The same smart, seductive, all knowing woman who hides more than she lets on; the same innocent victim caught up in events; the same poor sidekick who ends up dead...

McNab's attention to detail and writing style are the only thing that save this book from being totally forgettable. The bits of tradecraft you learn are always interesting and his active voice carries you through the read quickly. Still, it is frustrating to force yourself through this kind of book when he has written such great material previously. He seems to be in a rut of following the same bland thriller formulas that so many other good authors come to rely on. I know he has it in him to churn out another pageburner - just hope it happens soon.
