You may require just duplicate to the various other gadgets.

LET ME TELL YOU A STORY: A NEW APPROACH TO HEALING THROUGH THE ART OF STORYTELLING BY JORGE BUCAY PDF

Let Me Tell You a Story is a tender and delicate book about the search for happiness. Demián is highly strung young man, curious about the world and himself, but he has difficulty facing some of life's everyday problems, those concerning work, his love life, and relationships with friends and family. He is eager to know more about himself and to learn how to confront life with gusto and serenity. In short, he wants what all of us want: to be happy and fulfilled.

Demián finds Jorge, an unconventional psychoanalyst who approaches Demián's dilemma in an unconventional way. Every day, Jorge tells Demián a story. At times they are classic fables, others modern stories, or folk tales, stories that have been revisited and reshaped by the analyst to help his young friend overcome his doubts and find happiness. They are, in short, stories that can help every one of us better understand ourselves, our relationships, and our fears.

Let Me Tell You a Story.

By ledis gazic

I found the book by chance at my cousin's house who had gotten it as a Christmas gift, and as it looked interesting so I started reading it. I found it very interesting and engaging, although, I must confess that at times I did not really understand the point of some of the stories. Since I was reading the Croatian

translation, I ordered the book in English, and am planning on reading it again.

Overall, I would recommend the book to anyone who needs some guidance in their life. I think it can help with general questions of one's purpose and future direction in life.

What amazed me more was the approach of using stories from all different cultures and myths.

A book to recommend

By K.Z.

I read several of Bucay's books but in Spanish. I got this one as a present. Though it may be difficult to understand some of the stories, you will find yourself re-reading them or understanding them in the future. It psychology explained through a series of stories.

2 of 3 people found the following review helpful.

great book

By alexis

love this book and all the stories within. inspiring and enlightening, the book is not filled with undigestible boring preachings, but rather simple, light-hearted stories that can be interpreted multiple ways from different angles. lost a star only coz it was received with dents to the top and bottom of the edges of the spine, and i am particular about my books, especially when i buy it new.
