Essential Reading for Any Entrepreneur

By Amazon Customer

I just finished reading "Network Marketing for Facebook" for the 1st time. I say for the 1st time, because I know it is a book I will re-read and refer to over and over again. I just heard about the book on a team

conference call last night, I immediately bought it and downloaded it, and I have not been able to put it down! It has so many tips and tricks and strategies that any entrepreneur can apply immediately, not just for a Network Marketing company, but for any kind of business, really. The book is in 2 parts. The first half of the book is real-life tips, strategies and scripts that you can start to implement right away to help build your venture. It shows the right way to use Facebook and other social media to properly expose your business and to generate interest, instead of just blatantly and endlessly promoting the business, which is what many people do. The second half of the book is profiles and interviews with Network Marketing professionals who have benefited from author Jim Lupkin's advice, friendship, and guidance over the years. They share their struggles and successes with the industry and social media, and they all give you very helpful and valuable nuggets to help you build a business. I think this book is a must read for any home-based business entrepreneur, and especially for those who want to build a successful, long-term business using Facebook and social media as a tool to do so. I would highly and wholeheartedly recommend this book to anybody in the Network Marketing profession, whether it be the seasoned pro, or the newbie, and everybody in between. I look forward to using the strategies that are described in this book to build my own business, to share my products and to help my team do the same. Thank you for a great guide, Jim!

This is how network marketing professionals should use social media!

By Camp Runamok

I heard Jim Lupkin on an interview and was impressed enough to buy the book right away. I read through quickly and very much appreciated the simple and sensible steps. Jim's focus on using Facebook to build and deepen relationships is absolutely in line with how I want to generate business. The title is "Network Marketing for Facebook" but it's really more aptly called Relationship Marketing. I immediately used Jim's suggestion for birthday greetings and within a few days had "chatted" with friends I hadn't seen in 30 years. That wouldn't happen if I just did the standard greeting on the wall.

Although my particular industry isn't represented, I found the industry-specific examples very helpful and adaptable. The interviews were interesting with some inspiring nuggets.

I hope Jim does some additional books tackling the other Social Media platforms in such a clear and helpful format.

Excellent book for Social Media Marketing

By M. Hayes

Just read through Network Marketing for Facebook and I have to say that this book is the definitive book on how to use Facebook to build a business through building relationships. I have chased my tail trying to figure out how to capitalize on the huge marketplace that Facebook is, and for the first time, Network Marketing for Facebook has laid out a clear, and simple, step by step approach to developing a plan, and implementing it. The authors, and the impressive testimonials, make it very clear that marketing online is no different than marketing offline - gotta build those relationships and develop a level of trust. I highly recommend this book to anyone looking to grow their business the correct way using social media.
