Content is fine, but terribly formatted and proofread

By Chris

This is a poorly put together book. The content altogether is fine, but there are typos, sentences with missing words, and the section breaks for the "examples" are rarely ever examples, but instead just run on text from the paragraph.

It's sad that this is supposed to be furthering our education, when the book itself is terribly formatted and badly proofread. McGraw-Hill needs to work on their quality control.

Very easy to do and recommended if on a budget

By Amazon Customer

Rented this book from Amazon Rentals at about 1/4 the price of new. Book was definitely worn, but very useable and essentially highlight free. Very easy to do and recommended if on a budget.

Book itself is a good resource and is will cited. Only critique is the how the text is sometimes disjointed by placement of special sections, disrupts flow of reading the text narrative. Otherwise, greatly appreciate the author's effort and expertise.
