From Booklist

Starred Review Researcher Katharine Murphy has a lousy personal life. Her mother died when Katharine was young, leaving her with a father who drowns his sorrows with liquor and wagering. Katharine's professional life is just as bad. Her bully of a boss, Lydia Ashworth, gives Katharine assignments with unreasonable deadlines and expectations, the latest of which is to find her a suitable sperm donor. As Katharine undertakes the demeaning search for the perfect father for Lydia's baby, there is only one bright light in her life, her best friend since ninth grade, massage therapist Luc Fiorelli. But even this relationship becomes endangered when Luc reveals that his feelings for Katharine go beyond friendship. Despite the sadness and aggravation in Katharine's life, Perry turns in a romantic comedy, enlivened by Katharine's quirks--she is a fount of trivial knowledge, which she draws on every time she gets nervous, which is often. The reactions of the potential sperm donors she interviews also provide comic relief. Perry's impressive debut is a winning and entertaining combination of humor and pathos. Shelley Mosley

PROJECT DADDY (ZEBRA DEBUT) BY KATE PERRY PDF

How do you find the perfect match for the boss from hell?

Katherine Murphy needs to know. Her obsessive, demanding supervisor has given her an assignment that goes way beyond the call of duty: find her a man. But not just any man—he must have the perfect combination of good looks, job security, and solid genes to make him daddy-worthy. So, with a lofty promotion being dangled in front of her, Katherine dives back into the dating pool to find another woman's Mr. Right. . .

There is, however, a problem with Katherine's approach: for some reason, going up to strange guys and asking if they're ready for fatherhood is getting her nowhere. Which is why she recruits her best friend Luc to help with the man hunt. As he drags her out to gallery openings and bars, Katherine develops a new appreciation for Luc. But when Katherine strikes out in her search and Luc steps up to the plate as her boss's next date, she realizes he's perfect. Maybe too perfect to waste on someone else. . .

Great Surprise!

By M. Merrefield

I don't usually write book reviews, but I did want to write a review for this particular book. I often read reviews before downloading anything to my Kindle, as I don't want to pay for a book I'll hate, so I know that reviews can be important when deciding what to get. I wanted to read something before I went to bed last night- something quick and not super engaging so that I wouldn't get sucked in to reading all night- and decided on this book. I figured, from the title (which, to be honest, sounds like some sort of 80s-style romance novel), that it would be a quick and probably corny read - and I was very pleasantly surprised! I literally laughed out loud several times at Katherine's awkwardness- some of the random facts that would pop out of her mouth were downright funny! The first line reminded me a lot of myself, so I felt sorry for her right off the bat. I loved the way the story developed, her blossoming friendship with her neighbor, and her decision to finally stick up for herself with her father. She was definitely on the far end of naive, but I found it more charming (and hilarious) than annoying. I ended up finishing the book last night (so much for my original plan!) and I am looking forward to recommending it to my friends.

Seriously?

By LB

I cannot believe that reviewers gave this book 5 stars. The only reason I finished the book is that I had hope that it would get better and I liked Luc. The author kept on saying that Katherine was naive; I could have dealt with that. Nope. She was a functioning idiot with not a bit of common sense. What I thought was ridiculous was that the author tried to mask her inability to put two and two together in funny prose. It would have been a great book if Katherine had been a smart, logical woman in the same situation. More power to those who waste their time reading Project Daddy.

A pleasant surprise

By Janet

I could NOT put this book down and am paying for it today for staying up late into the night to finish it. It was fresh and funny and touching and endearing.

I did get frustrated when Kat and Luc didn't communicate how they felt, but instead Luc seemingly gave up on her and Kat let him. Given they were best friends for so many years, I think she would have given more priority to the relationship over her career problem and Luc would have talked to her rather than jumping into a relationship with her boss. But it was very heartbreaking to read about their dissolution. Luc's hurt jumped off the pages and though Kat came off as cold and unfeeling at times, her hurt was also clearly there. Also, given their longtime relationship, Luc would have known Kat well enough to know her lack of self-confidence or cluelessness in a man/woman relationship and understand her reasons for her strong drive to succeed in her career and therefore he should have been able to be up front with her about his feelings. But then it wouldn't have been as emotional as it was and I loved this book.

It's one of those where I can't get it out of my mind after finishing it. I highly recommend it!
