Public Speaking plain and simple

By Lindsey Lindgren

This book laid out all the expectations for giving a speech. It was easy to read and to understand. If you have not a clue on how to give a speech, this book will guide you with the How To. I also liked the examples provided, they help a lot.

3-4-1 deal and Apple friendly

By sagarcia_1

Buying the Kindle version, I now have access to it on my MacBook Pro, iPad, and iPhone. Simple using the highlight features, note taking, and whatever else you could use it for. Stored in my iCloud so I can access it everywhere. \$41.75 well spent, and not have to worry about the paper ripping or having to carry around another paperweight.

okay

By Whitt

This book is over rated and over priced for what you get.

Has some serious book to web site issues to work out.

The content of the book did not coincide with the Bebe web site.

Quizzes often didn't match up to the chapter in the book, was very frustrating.

Fix the glitches and this could be a great book and resource.
