The Brewsters is an innovative way to learn health professional ethics: a choose-your-own-adventure novel where *you* play the roles of health care provider, scientific researcher, patient and their family. Storylines branch based on choices you make as you read. The immersive story is interwoven with in-depth didactic chapters on health professional ethics, clinical ethics and research ethics. The author/editors are longtime medical educators. Jeffrey Spike, PhD is a Professor at the McGovern Center for Humanities and Ethics and Director of the Campus-Wide Ethics Program at The University of Texas Health Science Center at Houston. Thomas Cole, PhD is the McGovern Chair in Medical Humanities and founding Director of the McGovern Center for Humanities and Ethics at The University of Texas Medical School at Houston.

What? Learning is entertaining too?

By golindaguy

This is not the dry ethics textbook I remember from my school days; it is a whole new approach with human nature and the power of storytelling in mind. Before readers know it, they're personally involved in the interactive narratives, stories in which they get to make choices and then see the consequences. What a refreshing and entertaining approach! It has been months since I read this text, and I still remember specific actions and conversations between characters in the various stories. Reading and internalizing these scenarios are painless. The whole structure and design of the "The Brewsters" is ergonomics for the brain!

Health care ethics

By Traveler

This was purchase to go along with our medical health ethics textbook. The book will be used for three different 1,000 word papers throughout the semester. It contains several different scenarios that permit the reader to chose which path they would take as they work through each section.
