And So I Decided to Become a Teacher

By Mrs. C.

This is the diary of a Black man after World War II. College educated, from a well-mannered, professional family, Ricardo Braithwaite is from British Guiana. He is in London after serving in the RAF and can't find a job. No one wants to hire a Black engineer. So he takes a job at a rough East End school. At first the students and parents treat him with open racially motivated disdain, but he doesn't take the bait. Instead he behaves with dignity and, to their surprise, treats those who are cruel with the dignity and respect they have never experienced. He is an anomaly to them...a well-spoken Black man who behaves like an absolute gentleman in all situations. He addresses the female students as "Miss". He discusses the real life challenges that these students will face when the graduate. He is unlike any teacher they have ever known.

Excellent Reading - For Serious Readers Who Think About What They Read

By njmlkpt

For me, having seen and loved the movie long before I ever read the book, the book is a let down. But if I had read it first, I likely would have felt differently. To Sir With Love is a novel that should rank up there with To Kill A Mockingbird, the story told is that good. And don't get me wrong, I enjoyed reading the book, which I first read probably 30 years ago, but the movie will always be my preferred version. Its one of those enlightening novels that come along every so often, telling the story from the viewpoint of one person who is being candid with the thoughts, sights, and ideas encountered. This is more than an easy evening's read, and to do it justice, you really don't want to rush thru it but stop and think and savor all the new ideas, new visions, etc., that you are reading about.

Still a Classic

By Theresa A. Loeffler

I loved the movie with Sidney Poitier and I was curious how the book would read. I needn't have worried--the movie followed the book faithfully. Rick Braithwaite, a young black man, comes to England after the war with high hopes of using his military training to procure a good job. No one will hire him because of his color. A stranger suggests he try teaching, so he does. The way he turns a group of rowdy lower class students into well-behaved young men and women is as heartwarming as it can be, and I really enjoyed reading it.
