Excellent premise, but...

By Shadarus S.

... for being a book aimed at children it's overly wordy. Information is presented in large chunks and the dialogue feels unnatural and dry, almost as if it were being presented in a lecture hall instead of a conversation with a young friend. Still, the illustrations are cute and the idea was good.

Stars in the sky

By Mygsasha

It is a book I would recommend to children who are interested in stars' world. Gives a lot of information and can be very entertaining and educational.
